## P.102

### MORTAR PLASTICISER

Liquid additive whose main function is to plasticize and fluidize concrete and mortar, improving its manageability  
Yield: 0.1 liter per 250kg of cement  
Containers: 5, 10 and 25 Liters

## P. 202-PLUS

### FORMWORK RELEASE AGENT

Concentrated release agent for metal and wood molds and formwork.  
Yield: 20 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.102 PLUS

### CONCENTRATED MORTAR PLASTICISER

Concentrated liquid additive whose main function is to plasticize and fluidize concrete and mortar, improving its manageability.  
Yield: 0.1 liter per 250kg of cement  
Containers: 5, 10 and 25 Liters

## P.104

### ACCELERATOR

Liquid additive whose main function is to accelerate the setting process in mortars and concrete.  
Yield: from 0.250 to 2 liters per 50kg of cement  
Containers: 5, 10 and 25 Liters

## P.400

### WATER-REPELLING PRODUCT

Hydrophobic liquid that repels water and ensures breathability on the support without alter their appearance  
Yield: 2-5 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.402

### WATER-REPELLING PRODUCT

Product desingned for repelling the humidity that may cause mold. Repels water and ensures correct perspiration of the wall without modifying its appearance.  
Yield: 2-5 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.402 PLUS

### WATER-REPELLING PRODUCT

Product desingned for repelling the humidity that may cause mold. Repels water and ensures correct perspiration of the wall without modifying its appearance.  
Yield: 2-5 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.403

### WATER-REPELLING PRODUCT

Water-based hydrophobic liquid for porous surfaces. Repels water and ensures correct perspiration of the wall without modifying its appearance.  
Yield: 2-5 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.501-PLUS

### CLEANER

Concentrated cleaning product that removes cement residues and others.

Yield: 25m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.503

### STONE CLEANER

Stone cleaning product. It cleans tiles and stoneware. Eliminates cement residues.  
Yield: 10 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.505

### STONE CLEANER

Stone cleaning product, tiles and stoneware of mold.  
Yield: 10 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.600

### VARNISH FOR PRINTED CONCRETE

Acrylic resin that is used as finishing film for concrete and printed concrete floors.  
Yield: 8-10 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters

## P.302 PLUS

### RESIN JOINING BRIDGE

Resin that acts as a joining bridge between old concrete and new concrete. It is used in partitions to glue the cement to the support and for screeds.  
Yield: 5 m<sup>2</sup> per liter  
Containers: 5, 10 and 25 Liters
